EXPERIENCE

Adobe, Technical Analyst

April 2024 - present | English & French | **Contract** | Remote, UK

Support Adobe Western and UK&I Pre Sales, and Professional Services, deliver POCs and trials of Firefly Generative Imaging, Custom Models alongside automation use cases using Photoshop APIs.

Okta (AuthO), London — CIAM Specialist Solution Engineer

May 2021 - 2024 | English & French | Remote, UK

Lead technical Pre-Sales engagements and provide hands-on technical demonstrations, POCs and ad hoc Pre-Sales support, including SDK and API Integration, as required in SMB, Commercial & Enterprise 1, Public Sector. Particular focus on Financial vertical; PSD2, SCA and POA.

Next Reason, Strategic Consultant

May 2020 - March 2021 | English | **Contract** | Remote, UK

Support Procter & Gamble's European units with their rollout of the Lytics CDP product as the sole technical resource operating in EMEA. This while preparing demos, tools, training and automation scripts used for partner enablement and reporting activities in EMEA and APAC

SAP (Gigya), Senior Technology Consultant

May 2018 - November 2019 | English & French | London, UK, France & Germany

Provide internal and customer facing post sales implementation support alongside Solution Architects. Particular focus on GDPR consent and the challenges deploying SDKs and APIs in retail and financial enterprises; e.v., Vorwerk & KMPG France.

Tealium, Deployment Engineer

November 2016 - April 2018 | English & French | Reading, UK & France

Mobile Specialist focusing on mobile deployments on iOS, Android and Cordova, working with enterprise clients. The role requires a good working understanding of JavaScript, Java and Objective-C / Swift for SDK and API integration.

Bazaarvoice, Implementation Engineer

May 2015 - April 2016 | English & French | London, UK & France

As owners of the technical aspects of each implementation project we are responsible for bridging the gap between project owners and technical implementation teams. Implementation Engineers are required to be excellent communicators, problem-solvers and comfortable with complicated code and new technologies and SDK and API integrations.

Bio

English | Native Proficiency

French | Native Proficiency

Arabic | Beginner; learning

Having worked with JS, React, Angular, Next JS & Node JS as well as Python, PHP, Objective-C (iOS) and Java (Android) put me in good stead to have high and low level technical conversations where necessary.

I am an English and French speaker with a background in running CIAM Pre Sales and post sales engagements along with CDP consultancy for Enterprise clients in banking and retail across Europe.
